

Fall 2021 Update

Building Godly Men 2001-2021

Men from all over the nation were equipped this summer as we developed a first ever Men's Ministry Month. This resource offered Christian men of all ages over 100 different seminars on topics specific to men.

Equipping men will always include developing various tools for men and for groups of men like this 7 session video resource.

Iron Sharpens Iron has always offered conferences for men of all ages and training seminars for pastors and leaders who are discipling men. Both were offered this Fall in the Northeast!

From the President

It has been over twenty years since our first conference in 2001 and so men who were not Christ followers then - are Christ followers now. Men who were not married then - are married now. Men who were not fathers then - are fathers now. Men who were not grandfathers then - are grandfathers now. We thank God for showing us favor to be part of building a new generation of godly men!

National Director

Ministry To Men

Rex Tignor
Training Director

We know that this past year has been challenging for ministry to men but I am excited that local churches are once again gathering and discipling men. We want to help you start or restart a ministry to men in your church so please reach out to me and let's develop a plan.

Daniel Lagan
Northeast Director

Northeast Update

Despite the unprecedented challenges of COVID, Iron Sharpens Iron has been blessed to partner with hundreds of Northeast churches to help build and train the men of their congregations. While we have not been able to meet together for our One-Day Equipping

Conferences, we have hosted training on-line as well as in-person in every state in the Northeast. We are thankful for the ability to "Build Men With Others In Mind" and are busy laying the groundwork for LIVE IN PERSON equipping conferences for the Spring of 2022! See you there!
